Recommendations:

I purchased one of the Imperial Sewing Machines of Mr. Williams in October last, and must say that it has more than answered our expectations; it is almost inconceivable to those who have never employed one of these machines the amount of labor saved by it. I think every mother of a family would consider it invaluable when once accustemed to the use of it. They are got up CARPETINGS, CHEAP & GOOD. in a strong, ornamental, and durable manner, and are certain in its operations; our "better half" operates it to her entire satisfaction, with scarcely an hour's instruction.
